

Competition 2011-NIST-MEP-STATE-PARTNERSHIPS

Frequently Asked Questions (FAQ's)

Federal Funding Opportunity 2011-NIST-MEP-STATE-PARTNERSHIPS Questions:

- 1. Please let us know if there is an incumbent and the current satisfaction or lack of satisfaction you have with the incumbent. The submission deadline and requirements suggests an intention to fund the incumbent. An honest response would help us determine if we should invest a serious effort to submit a competitive proposal that would be seriously considered by NIST MEP regardless of who the incumbent is and if competitive NIST MEP will not have problems changing the recipient regardless of whether there is an incumbent.**

NIST MEP is offering this federal funding opportunity as a full and open competition to award a cooperative agreement in FY2011 with the option of renewal for up to five years total. In the past, NIST MEP has made several financial awards to provide state relations support services to the MEP program on a national basis. Currently, those services are provided by SSTI, the State Science and Technology Institute.

- 2. Will current MEP Centers qualify to participate either as a primary applicant or consortia member?**

NIST MEP Centers that meet the published eligibility criteria are eligible to participate either as a primary applicant or consortia member, refer to the Eligibility Section in the full Federal Funding Opportunity announcement, 2011-NIST-MEP-STATE-PARTNERSHIPS, at <http://nist.gov/mep/upload/2011-MEP-state-partnership-ffo-to-fanout.pdf>. Eligible applicants must be a U.S.-based not-for-profit institution or organization or an entity or agency of state or local government. For the purpose of this solicitation, state and local agencies and non-profit organizations including universities, community colleges, and independent nonprofit organizations, are eligible. Eligible applicants may be consortia of state and local agencies and/or non-profit institutions.
